

NALSA (National Legal Services Authority)

Understanding the common misconceptions and realities about India's **statutory authority** for **legal aid** and justice access.

Core Functions and Structure Misconceptions

✗ **NALSA** is a judicial body that tries cases

✓ **NALSA** is a statutory authority (Legal Services Authorities Act, 1987) to provide legal aid and promote legal literacy — it does not adjudicate disputes.

✗ **NALSA** provides free lawyers only to criminals

✓ It provides free legal services to eligible persons in civil and criminal matters per the statute.

✗ **NALSA**'s mandate is only court representation

✓ Includes legal aid, Lok Adalats, legal literacy, mediation and alternative dispute mechanisms.

✗ **NALSA** is only a Central body; States have no role

✓ There is a network: National, State, District Authorities and Taluk Legal Services Committees.

✗ **NALSA** can force a lawyer on a party against their will

✓ It provides eligibility-based assistance; party consent is involved in representation choices.

✗ **NALSA** runs Lok Adalats only occasionally

✓ Lok Adalats are core NALSA functions; many permanent and periodic Lok Adalats organised by NALSA bodies.

✗ **NALSA** handles only indigent litigants

✓ Primarily focused on the marginalised, but statutory eligibility covers several disadvantaged categories.

✗ **NALSA** advice is merely symbolic

✓ It provides legal advice, counselling and assistance that materially affects access to justice.

✗ **NALSA** is the same as Legal Aid Clinics in colleges

✓ Legal Aid Clinics complement NALSA but NALSA is the statutory institutional framework.

✗ **NALSA** has unlimited funding and reach

✓ Funds are limited, and implementation varies across states/districts.

Service Delivery and Operational Misconceptions

✗ **NALSA** cannot organise mediation or conciliation

✓ **NALSA** actively promotes mediation, Lok Adalats and ADR to reduce pendency.

✗ **NALSA**'s schemes are discretionary and non-justiciable

✓ While administrative, statutory mandates create enforceable expectations; courts monitor **NALSA** functioning.

✗ **NALSA** only helps during trials

✓ It assists in pre-litigation, legal advice, negotiation, and litigation phases.

✗ **NALSA** can represent a party in any international forum

✓ **NALSA**'s mandate is domestic legal services; international representation is beyond its scope.

✗ **NALSA**'s appointment of panel lawyers is arbitrary

✓ Paneling follows state rules and eligibility criteria, though transparency can vary.

✗ **NALSA** is only reactive (helps only when approached)

✓ **NALSA** also does outreach, awareness, legal literacy and proactive schemes.

✗ **NALSA** duplicates State legal services

✓ It coordinates with State/District authorities to avoid duplication and ensure coverage.

✗ **NALSA** can refuse legal aid where justice requires it

✓ Decisions must align with statutory criteria and principles of equity; denial can be challenged.

✗ **NALSA** funding means free counsel is poor quality

✓ Quality varies; training, standards and oversight aim to ensure competent representation.

✗ **NALSA** cannot advise on rights before police/arrest

✓ **NALSA** schemes include pre-arrest legal advice and legal aid at police stations in many jurisdictions.

Scope and Implementation Misconceptions

✗ NALSA only organises Lok Adalats for civil matters

✓ Lok Adalats under NALSA handle civil, family and compoundable criminal matters.

✗ NALSA cannot assist victims in enforcement of social welfare schemes

✓ Legal aid includes enforcement of statutory entitlements and welfare benefits.

✗ NALSA is apolitical and cannot be critiqued

✓ It's an administrative body and subject to accountability, audit and judicial review.

✗ NALSA's reach is uniform across India

✓ Implementation varies by state/district capacity and funding.

✗ NALSA replaced the need for public defenders

✓ It supplements legal aid; public defender models are an alternative, not identical to NALSA's framework.

✗ NALSA cannot run specialised legal aid (e.g., for transgender persons)

✓ NALSA runs targeted schemes for marginalised groups and collaborates with NGOs and specialists.

✗ NALSA awards are binding like court decrees

✓ NALSA can facilitate settlements in Lok Adalats which become binding decrees; NALSA itself doesn't adjudicate.

✗ NALSA creates independent legal standards

✓ It operates within statutory and judicial frameworks, not to create standalone law.

✗ NALSA assistance is only post-arrest

✓ It provides pre-trial legal counselling, bail assistance and court representation as needed.

✗ NALSA's role is limited to urban centres

✓ A central goal is rural outreach via district/taluk committees and mobile legal aid camps.
